

**"Indian Badminton is at its brightest phase right now."**

"Indian Badminton is at its brightest phase right now. Among men, we have six Indians in the top 50. Sindhu's World Championship bronze was a great achievement... . I could not see much of [IBL](#) because I was abroad, but I heard that it was a great success".

**"The IBL is something we are proud of."**

" The IBL is something we are proud of. We are lucky to see this happen in our own life. It was a resounding success. I am sure, the IBL is going to stay here. As far as I am concerned, every evening it was a pleasure to sit in front of TV and watch these matches. When the IBL got over, you wonder what to do the next evening."
